OLMAN GEMECHU

Addis Ababa, Ethiopia | otech-portfolio.netlify.app | olman4jesus@gmail.com | +251 967467842

Creative and detail-driven Frontend Developer and Software Engineering student at AASTU with a strong foundation in responsive web design, modern JavaScript frameworks, and UI/UX principles. Skilled in building interactive, high-performance web applications using React, RKT, JavaScript and Tailwind CSS. Passionate about translating design into code and delivering user-centric digital experiences. Eager to contribute to innovative teams and grow through real-world development challenges.

EDUCATION

ADDIS ABABA SCIENCE AND TECHNOLOGY

Software Engineering | Addis Ababa | 2022 - 2026

- GPA: 3.6/4.0
- Relevant Coursework: Web Development, Database Design, Object-Oriented Programming, DSA.
- Actively involved in the university's Engineering Club (Google Developers Group)

PROJECTS

FAST PIZZA

Solo Frontend Developer

React | Redux Tool Kit | React Router | TailwindCss

- Developed a responsive pizza-ordering web app with dynamic cart management, real-time order status tracking, and an intuitive menu interface using React.js and Redux Toolkit for state management.
- Integrated RESTful APIs to handle menu data, cart operations, and order submissions, ensuring seamless communication with the backend system.

SOFTWARE AGENCY LANDING PAGE

Solo Frontend Developer | 2 month

React | Tailwind CSS | React Hook | CSS animation
- Designed and developed a visually striking landing page for a software development agency, featuring custom CSS animations for smooth hover effects, scroll-triggered transitions, and interactive service cards.
- Built a responsive UI with Tailwind CSS, ensuring seamless performance across mobile, tablet, and desktop devices.

TRAVEL TOUR WEB APP – GDG CAPSTONE PROJECT

Front End Developer

React | React Hook | Tailwind CSS | Dasiy UI
- Collaborated with team members to develop a responsive travel tour web app using React and Tailwind CSS
